In answer to the resolution of the House of Representatives, calling upon the President for information relative to the admission of which took place in the House of Representahe interesting to some of our readers:

PRINCETON, SACRIFICIOS, Aug 16, 1846. the English minister in Mexico, to Mr. Packenham at Washington, allows me an opporchant steamer Arab, from the Havana.

I have allowed him to enter without molestation, or even speaking the vessel, as l was informed by the senior English naval officer here, Capt. Lambert, she carried no cargo, and would not be allowed to take any in return I could easily have boarded the Arab, out my concurrence. It is now quite certain the whole country-that is, the garrisons of every town and fortress-have declared in fayor. But, unless he has learned something than three months.

National Washington Monument .- Renewed efforts are now making to secure sufficient funds for the erection of a monument to perpetuate the memory of the " Father of his Country," at Washington. An engraved design of the proposed Monument has been prepared and exhibited. The whole structure. including obelisk and circular pile at its base, will be 600 feet high. The obelisk will be 500 feet. In its design and magnitude it is worthy of the purpose for which it is intended, and the liberality and gratitude of the American nation should ensure its erection. Charleston Courier.

Every man, woman and child in the United States should contribute towards the erection of this Monument, and feel themselves honored in being permitted to do so. It is undoubtedly true that the name of Washington reguires no Monument to perpetuate its fame to future generations. The people of the United States, however, owe it to themselves, to avoid the charge of ingratitude, to erect this Mr. Atkinson replied: I will tell the gentlecountryman, and worthy of the gratitude of a great and prosperous people.
